

Line Voltage Monitor with Surge

- Protects against over and under voltage, rapid short cycling and high-power surges
- Programmable set points to determine cutoff
- Ideal for inverter systems, mini-splits, and other condensing units
- Fault history feature records and retains the most recent faults in non-volatile memory
- Bank of five L-L Surge Arresters
- Easy to view, backlit digital display
- Built-in 40A contactor
- Waterproof, NEMA-Rated 3R enclosure for outdoor use
- Easy installation and setup
- Limited lifetime product, up to a 3-year \$10,000 connected equipment warranty
